## DEVELOPMENT OF THE INSTITUTION OF ADMINISTRATIVE LIABILITY OF LEGAL ENTITIES ON THE TERRITORY OF UKRAINE

This article analyzes the ways of the historical development of the institution of administrative liability of legal persons, including in the sphere of nature. Assessment is carried out of the legal regulation of the Institute of Ukrainian legislation and ways to further regulation.

Legal research in the field of administrative liability of legal entities carried out by such researches as V. Andryeytsev, J. Bachrach, D. Lukyanets, J. Shemshuchenko and others.

A detailed analysis of the stages of historical development of the institution of administrative liability of legal entities, including in the sphere of nature and the effective legislation of Ukraine

must conclude that all this reflects not a lack of administrative liability of legal entities, but rather the fact that the institution of administrative liability of legal person is in the making. Of course, it is not completely shape and contains many contradictions and gaps, however, deny its existence there is no reason. We believe that a new phase of development of the institution of administrative liability of legal entities begin with the adoption of a new Code of Ukraine on Administrative Offences. This Code on Administrative Offences will be a new stage of development of all sectors of the domestic administrative law or changes to existing code in the part that will involve the liability of legal entities.
